[Prof. Ben Kahn](#), Mass. College of Liberal Arts, North Adams, MA

[Prof. Bradford Knipes](#), Westfield State College, Westfield, MA

[Prof. Mary Rogers](#), Framingham State College, Framingham, MA

## **COURSE RESOURCES:**

CD ROM: Multi-media Business Library Comprehensive Edition, Irwin-McGraw-Hill  
(Includes the following):

Fundamental Accounting Principles, 14th Ed.  
Basic Marketing, 12th Ed.  
Business law and the Regulatory Environment, 9th Ed.  
Human Resource Management, 6th Ed.  
Advertising and Promotion, 3rd Ed.  
Strategic Management, 7th Ed.  
Organizational Behavior  
International Business, 2nd Ed.  
Fundamentals of Corporate Finance, 3rd Ed.  
Fundamentals of Investment Management, 5th Ed.

## **COURSE OBJECTIVES:**

There are several primary objectives for the course, including the development of:

- A mastery of the theoretical content represented by the text, video lectures, and readings;
- Experience in using these theoretical models to address critical business and economic issues facing our regions and the World;
- Skills in multimedia collaboration;
- Experience in organizing team efforts and managing joint accountability;
- An appreciation of the decision making process in organizations;
- Skills in research; and
- An ethical and international vision for the future.

## PREREQUISITES:

The minimum standing for admission into the course is second semester sophomore status. Juniors and seniors are also welcomed into the course. You are welcome to discuss any special graduation requirements you might have with your professor. Beyond that, within the context of the course, you are expected to take initiative in applying knowledge you have acquired in prior courses and experience.

## GENERAL INFORMATION:

- **Attendance:** Information exchanges and interactions are an essential part of this course. Therefore, class attendance and participation is expected and evaluated. Students are responsible for all material presented in class. If you are absent from class when a written assignment is due, you must arrange for the material to be shared before the scheduled class meeting. Please consult with the professor if you must be absent from class or unavailable for collaboration.
- **Teaching Methods:** Students are expected to be active participants in all class activities. Student initiated multi-media interactive projects are used as the primary teaching method. Other teaching methods employed will include guided discussion and video lectures.
- **Evaluation:** Your work in this course will be evaluated based on realism, collaboration, reasoned analysis, and quality of presentation. All work must focus on resolving issues identified in this course.
- **Grade Distribution:**

Course participation/DB assignments	15%
Midterm	30%
Contribution to group effort	15%
Project Presentation	20%
<u>Project Write-up</u>	<u>20%</u>
<b>Total</b>	<b>100%</b>

## COURSE REQUIREMENTS:

1. **Class Participation:** Clearly, participation begins with access, and all students are expected to attend all classes, and to make frequent contact through available media. Absence from class discussion will result in a zero for participation that day. If you have a documented excuse, with approval of the professor you may submit a 2-page analysis for that class session, and make a brief presentation. The project materials should include documentation of multimedia collaboration.
2. **Discussion Notes:** Discussion notes on the appropriate material should be prepared before each class meeting. These notes will assist you in making a substantive contribution to the discussion, whether with the entire class, or with your team. Whenever possible, you are expected to volunteer input to discussions. The professor will ask direct questions.
3. **Project Teams:** Small multi-campus project teams of 4-6 students will be formed to research issues of concern to the global issues and their effect on various economies. Groups will be responsible for all aspects of making decisions from the perspective of a real Massachusetts organization. At the end of the semester, the teams will make live presentations to the entire class. Details about these presentations will be discussed during the semester.
4. **Peer Evaluations:** Group members will complete peer evaluations of one another at the end of the project. Additionally, feedback can be given to any other collaborator during the course. Based on both of these types of evaluations, the professor might adjust your course grade accordingly.
5. **Academic Honesty:** Intellectual honesty is essential to human communication and sustainable enterprise. Integrity is essential to academic life. Consequently, students are expected to maintain high standards of academic honesty and scholarly practice. They shall be responsible for familiarizing themselves with the published policies and procedures regarding academic honesty. Please consult the college catalogues for a detailed description of academic honesty and the college procedures for dealing with infractions. [LINKS OR THREADED DISCUSSION ON BULLETIN BOARD](#) Lack of knowledge of the policy is unacceptable as an excuse for plagiarism or dishonest efforts. Additionally, mutual respect should be shown to everyone at all times.
6. **Assignments:** Written assignments are due and should be posted on the Discussion Board by the beginning of class for which they are assigned.
7. **Syllabus Changes:** Students are responsible for any announced change in this syllabus. We strive for continuous improvement.
